

EL BOSQUE DE MARCELA - MARCELA'S FOREST

“Si no te importa donde estás no estás perdido”

Theater Dance for Outdoor (square, garden, forest...) With 3 men and 2 women -
Duration 25 min - All Puplic - No Text

The essence of the theatre dance piece *El Bosque de Marcela* is a game.
With the same structure as „snakes and ladders“, a childrens game that hides a
universal symbolism,
we build our own labyrinth where action is the option.
For characters enter the garden of hasard, for players who will rebel against them
host.

Performed for the first time the 22 nd of July 2004 in the Forum de las Culturas,
Barcelona.
